HOT COMPETITION IN BEREA FAIR RINGS

Big Crowd Sees Opening Program on First Day—Complete List of the Winners

First days at fairs are usually uninteresting, but the new management of the Berea Fair had provided such an interesting program for the opening Wednesday that a good sized crowd was on hand. With delightful weather, a still larger one is expected Thursday.

There were several good horse rings and races and the women were all naturally interested in awards made in the floral hall. The Better Baby contest attracted lots of interest. The winner of the premium for the nearest normal weight and measures, was Fleming Park Griffith, son of Fleming Griffith, of Berea. The prize for the best summer dressed baby was awarded to William C. Lakes.

The Berea Woman's Club poster attracted lots of interest, the winners of the three prizes offered for these were Mary Gay, first, Alice Lee Dick, second; Nora Coyle, third.

The roadster and walking rings held the interest of the crowd intensely. There were 13 entries in the walking ring and it took the judges some time to pick out the winners for there were some mighty good walking horses shown. They finally awarded the blue to Jim Potts, of Richmond. Mr. Potts acted as starter for the races and gave general satisfaction.

The pacing races were exceptionally interesting, and well contested. Irvine Hume, of Richmond's crack "sidewheelers" had the speed of the parties, however, and he won both events.

Curt C. Rhodus, former manager of the Hotel Glyndon and also an ex-Bereanite, was on hand assisting Secretary J. E. Moore, and meeting his many friends Mr. Moore is proving the right man in the right place and is keeping things moving.

The awards made on the first day were as follows:

OVER 63,000 FARMERS NOW IN BURLEY POOL

T. S. Burnam Named On Elections Committee To Choose New Directors In Sept.

Lexington, Ky., Aug. 3—More than 63,000 farmers have joined the Burley Tobacco Growers' Cooperative Association, according to the figures presented by Assistant Chief William Collins, of the Field Service Division, to the Board of Directors of the Association in regular monthly session at the offices of the Association here yesterday. To the 55,617 members of the Association at the time it was declared on last November 15, with the signing up of 85 per cent of the 1920 acreage, there have been added 8,201 of whom 3,798 have been added since July 1, Mr. Collins reported.

President James C. Stone appointed a committee composed of Judge I. H. Thurman, of Springfield, J. M. Sausley, of Flemingsburg, and T. S. Burnam, of Richmond, as an elections committee to provide a uniform system of holding the primary and election of directors in September.

Another committee composed of Vice President Bush W. Allin, of Harrodsburg, P. B. Gaines, of Carrollton, and J. B. Winn, of Versailles, was appointed by the president to re-district the burley territory, so as to permit the eastern Ohio, West Virginia, and Tennessee growers to have representation.

Both committees will report at an adjourned session of the board of directors today, and it is probable the directors will be in session for most of the day before they complete the business necessary to transact in connection with the coming elections.

The directors adopted unanimously a motion of Judge Thurman that the surplus property of the association be sold at auction under the direction of Director of Warehouses Ralph M. Barker, the high bids to be reported to the property will be advertised for sale in the newspapers of the counties in which it is located for a reasonable time previous to the sales, under Judge Thurman's motion.

Chairman Noah Glascock, of the organization in Franklin county, Indiana, was before the board in regard to the establishment of a receiving plant in that county. Director Barker said that in his opinion the county should have a receiving plant and on motion the matter was left to him for decision and report to the board following a visit to that county, which he will make as soon as opportunity offers.

It was decided to establish at Foster, Ky., the receiving plant requested for that town, because of a considerable territory in Bracken county and across the river in Ohio tributary to it, which has been signed up to the Association recently in addition to the already large acreage in the association which would have to be hauled or shipped a considerable distance otherwise.

The proposition had the approval of Director Barker and the executive committee, whose members visited the site of the proposed plant Tuesday. It will be financed and the expenses of construction borne locally before it is turned over to the association.

Assistant Chief Collins urged that now is the time for the central counties to sign up their growers and President Stone expressed the hope that each director would go home from the meeting and spend a week getting together the enthusiastic hustlers who put the association over last fall to go out and sign up as many of the outsiders as possible.

Discussion of the tobacco situation among the directors revealed the fact that, so far as their sections of the country is concerned, the recent estimates of a large tobacco crop are greatly exaggerated. Director Everett McClure, of Aurora, Indiana, said that there would not be over half of a normal crop in the Indiana counties.

Mr. Glascock reported to the board that about 75 per cent of Franklin county, Indiana, has been signed and said that with the establishment of a receiving plant there he had no doubt he could sign up 90 per cent of the growers.

GOVERNMENT AT A STANDSTILL ON STRIKE

(By Associated Press)

Washington, Aug. 3—Indications continued to multiply today that the federal government contemplated no immediate step in the rail strike.

A member of Harding's cabinet said, however, as "an abstract proposition" it might be imagined that the government would ask a receivership for the railroads that are unable to execute their mail contracts. This is apparently a remote contingency as the mails are said to be handled without slight interruption.

Laid In Negotiations

Chicago, Aug. 3—There was a lull today in peace negotiations in the railroad strike. Railmen are reticent on where the next peace move would originate. Both strikers and railroad executives turned their eyes toward Washington.

T. & P. Stops 20 Trains

New Orleans, La., Aug. 3—The Texas and Pacific Railway today announced discontinuance of 20 passenger trains due to strike conditions.

Telegraphers To Talk

Chicago, Aug. 3—E. J. Manion, of St. Louis, president of Railway Telegraphers, sent letters to heads of 12 railroad unions not on strike, suggesting a meeting to discuss the growing tendency to involve their men in the shopmen's strike.

BRITISH PLEA
TO GO UNHEEDED

(By Associated Press)

Washington, Aug. 3—Great Britain's note to her debtor nations suggests cancellation of the whole interallied indebtedness will cause no change in the policy of the United States toward its foreign debts, it is stated officially today at the Treasury. As the note was not addressed to the United States no official cognizance of its transmission will be taken by this country.

of directors, save Judge Robert W. Bingham, director at large for Kentucky, and Robert Pendleton Taylor, of Winchester, were in attendance. Those present were: Directors at large, Martin E. Harris, of Rising Sun, Ind.; Chas. H. Woodmansee, Felicity, O.; I. N. Kehoe, Maysville; Carroll D. Asbury, Augusta; R. B. Gaines, Carrollton; H. K. Bourne, New Castle; J. D. Craddock, Munfordville; J. R. Jones, Cynthia; O. C. Ellis, Ripley, O.; Bush W. Allin, Harrodsburg; Dawson Chambers, Kenton county; T. S. Burnam, Richmond; Everett McClure, Aurora, Ind.; J. H. Sausley, Flemingsburg; E. T. Holloway, Taylorsville; Clifford L. Walters, Shelbyville; Judge I. H. Thurman, Springfield; W. H. Shanks, Stanford; Ben T. Wright, Mt. Sterling; John H. Winn, Versailles; Frank V. Nunneley, Georgetown; Sam Clay and President Stone, Director of Warehouses Barker and Secretary H. Lee Earley.

President Stone warmly commended Chief Collins of the Field Service Division, for the work of his department in signing up so many new members.

Admission of the Burley Tobacco Grower, official organ of the association, to the second class mail privilege, was reported by a committee composed of Vice Presidents James N. Kehoe and Bush W. Allin, and Miss Carmon Hallmeyer, of the legal department, who went to Washington to take the matter up with the postoffice department, following a failure to obtain favorable results by correspondence.

GOOD WORD AT BERA EXPERIMENT FIELD

County Agent Spence Tells What Has Been Accomplished By Scientific Treatment

County Agent Robt. F. Spence sends the following about the Berea experiment field:

The Berea experiment field represents thousands of acres of low flat poorly drained land adjacent to the knobs extending around the border of the blue grass region.

Of the eight soil experiment fields representing various soil areas in the state, none responds more markedly to treatment than the Berea field, especially with regard to corn and soybeans. In a four-year rotation of corn, soybeans, wheat and clover, the average yield of corn for nine years on land having no treatment has been 16.9 bushels, while that having six tons of manure per acre per rotation has been 37 bushels; that having manure and limestone, 60.6 bushels, and that having manure, limestone and acid phosphate was 74.1 bushels per acre.

The average yield of soybean hay for eight years with no treatment has been 1569 pounds per acre, while that on manured land has been 2622 pounds. On land having manure, limestone and 242 pounds, and on that having manure, limestone and acid phosphate, 4,133 pounds per acre.

The yield of soybean hay on land having no treatment in 1921 was 1,560 pounds; on manured land 3,200 pounds; on manured and limed land 4,160, and on land having manure, limestone and acid phosphate the yield was 4,675 pounds per acre.

While the Berea soil is naturally a poor wheat soil and the yields have been low, yet the increases obtained from limestone and limestone and phosphate have been large. Likewise the yield of clover have been low on the untreated land, yet the land treated with limestone and acid phosphate has given an average increase of 2,060 pounds per acre over the land having no treatment.

Another demonstration was begun on an adjoining piece of land in 1916. A portion of this field was treated with two tons of limestone and 300 pounds of acid phosphate per acre. Another portion was left with no treatment. The whole area was seeded to sweet clover. In 1917 \$41.25 worth of sweet clover seed per acre was harvested from the treated land while the clover was a complete failure on the untreated land. The sweet clover straw was returned to the land and in 1918 the land was planted to corn. The yield of corn was 40 bushels per acre on the treated land, where the sweet clover had grown, and 20 bushels per acre on the untreated land. The land was again seeded to sweet clover and a sweet clover hay crop cut off in the spring of 1921, yielding 1 1/2 tons of hay per acre. Immediately after the hay was cut the land was seeded to soybeans and a soybean hay crop was harvested in the fall, yielding another 1 1/2 tons of hay per acre on the treated land and only 3/4 of a ton on the untreated land. The entire field was in corn in 1921 and the yield of corn was about 45 bushels per acre on the treated land as against 10.6 bushels on the untreated land.

REED'S MAJORITY IS ABOUT 9,000

(By Associated Press)

St. Louis, Mo., Aug. 3—Senator James A. Reed had a lead of nearly 9,000 votes over Breckinridge Long for the democratic nomination for United States Senator on the face of unofficial returns from all but 442 precincts of the state today. The Globe Democrat independent newspaper, which fought Reed's candidacy, conceded his nomination.

Seventy-two additional precincts cut Reed's lead to 7,561 over Long. R. R. Brewster, of Kansas City increased his lead over William Sacks, of St. Louis, for the republican Senatorial nomination, to 11,000. Sacks ran on a "wet" platform. Brewster's nomination is assured.

METHODISTS TO BUILD HANDSOME CHURCH

As Memorial To Miss Belle H. Bennett, Who Devoted Her Life To Master's Work

The life and noble work of Miss Belle H. Bennett are to be commemorated in Richmond by the erection of a magnificent Temple of God. This was decided upon at a congregational meeting of the Methodist Episcopal church, South, held here Wednesday night. As is well known, Miss Bennett gave her life to the service of her Master through the channels of this, her denomination. She was without doubt the most prominent woman in the Methodist church in the world, and her labors were world wide in their scope.

An organization was set on foot at this meeting, to be known as the Belle H. Bennett Memorial Association and to have charge of the financing and arrangements for the building of the church house which will stand as a permanent and visible memorial to this great and noble woman. The following statement was handed the press about the matter:

"At the Methodist church Wednesday night, there was held a large and enthusiastic meeting of thorough organization of the congregation, at which a membership of the church, under the efficient leadership of Mr. C. C. Wallace, charge Lay Leader, was had. At the conclusion of this, Dr. B. C. Horton, of Lexington, made an address on the life and work of Miss Belle H. Bennett, and the congregation was then organized into a Belle H. Bennett Memorial Association, whose purpose is to build a suitable memorial in the form of a great church in our growing and important city. There was manifested a great spirit of hope, faith and courage and it is confidently believed that an institution beautiful, useful and capable of rendering large service, will in the near future enshrine the name and commemorate the work of Richmond's greatest citizen, who was truly an uncrowned queen."

The personnel of the Belle H. Bennett Memorial Association was announced as follows: President—C. C. Wallace, Richmond, Charge Lay Leader. Assistant President—B. C. Horton, pastor First M. E. Church, South, Lexington.

1st Vice President, W. O. Sadler, pastor M. E. Church, South, Richmond.
